

Take your music
production skills
to new heights!

Music Production

Elevate your music production skills with YOUmedia's state-of-the-art programs. High-tech computers and studio-grade headphones offer endless possibilities for beat-making. Join our community and unleash your creativity today.

Who We Are

YOUmedia Hartford is a digital learning and makerspace just for teens (13-19) to hang out, mess around & geek out with state-of-the-art technology. Teens might learn a new trade from a visiting artist or get project support from one of our amazing mentors. We're here to help young people explore what they love and turn that motivation into real life.

Game Design & Esports

Whether it's playing video games, making video games, or watching streams, we can do it here at YOUmedia. Learn all facets of game design, including art, writing, coding, and more. Engage your competitive side with our eSports program with regular tournaments or learn how to create and run an eSports event or team!

From sketch to 3D model to video game. Stop in and see how our "Cat Rescue" VR game is progressing!

Geek out with fellow creatives and explore our high-tech maker machines!

Arts & Crafts

Explore your creative side with YOUmedia's Arts and Crafts Programs! Learn to sew, stitch, or craft anything you can imagine, whether it's a cosplay for the next Connection or a unique piece of art. YOUmedia also offers the perfect space to hang out, paint, and draw with friends.

Virtual Reality

Enter a world of endless possibilities with Virtual Reality. Discover the 'metaverse' and unleash your creativity by playing games, or creating your own. Learn to design entire 3D worlds and characters. Join our community of VR enthusiasts and take your virtual experiences to the next level.

VR brings gaming to the next level! Experience it for yourself!
